

### Cushy for Baby's Tushy

Finally, a diaper-changing pad that's perfect for working moms on the go: the smartly designed Tushygear on the Road. It's small enough to tuck into your purse and is lined with a soft, comfortable fabric that protects delicate little bottoms. (One style is even organic, so it's gentler on the environment, too.) The eye-catching patterns are sure to please moms who like to travel in style, and the pads are designed to hold up to three diapers and a small pack of wipes (\$38 to \$55, [www.tushygear.com](http://www.tushygear.com)).
